

Our Quality Policy

Procadimoldes aims to provide our costumers a wide range of products and services, which meet their expectations and requirements, for this we are committed to a permanent search of continuous improvement on quality of services provided and Q.M.S., in order to ensure high quality standards in accordance with the applicable requirements to our activity and the Q.M.S..

We view each business relationship as a partnership, so we encourage our clients to be active partners in the defense of their rights.

To achieve the aforementioned purpose we bet:

- on the employees satisfaction, investing continuously in their skills development, in improving motivation levels as well as loyalty in interpersonal relationships.
- on the costumer's satisfaction with a constant commitment to innovation/new action areas, new technologies and promotion of spirit of change which ensures a growing maturity of the organization and the projects carried out.
- on the management's satisfaction, seeking the company's success, making their investments profitable, along with making the company socially and economically attractive.
- on the suppliers' satisfaction, betting on the attendance at work, in the projects' definition and fulfillment of the term of payment.

The Quality Policy is made known to the entire organization, through its availability for consultation by posting in various locations or by computer access, and also through communication means, such as the Procadimoldes website.
